

I do not want to see my local K-LOVE radio station forced off the air in exchange for LPFM stations. My family enjoys and supports K-LOVE and we believe it has a very positive effect on our community and is a family-oriented station. There are too many stations which push the FCC limits on decency and K-LOVE gives the communities it serves a wonderful alternative. Please consider the fact that if K-LOVE is solely supported by its audience, and has remained on the air for the duration it has, then there are enough interested citizens in each community across the United States for those voices to be heard. Please don't force K-LOVE off air.
